Pulitzer Prize-winning historian McPherson offers a masterful portrait of the bloodiest single day in American history, the Battle of Antietam, fought on September 17, 1862.

“[A] remarkably revealing history....This well-researched, opinionated account does a fine job of filling a surprisingly empty historical niche.” —Publishers Weekly Citizen-in-Chief, *The Second Lives of the American Presidents*, is a smartly researched, surprising, often witty, and always revealing look at former presidents from George Washington to George W. Bush. Authors Leonard Benardo and Jennifer Weiss offer readers entertaining true stories of the radical turns, provocative rehabilitations, and tragic trajectories of presidential lives after the White House. Washington Post columnist Richard Cohen calls Citizen-in-Chief, “an engrossing book, Benardo and Weiss tell a fascinating tale,” and he properly states that where our nation’s leaders went after leading is often “more interesting than the presidency itself.”

Drawing for Urban Design explores a wide range of ways to represent the city, from freehand sketching to sophisticated computer models. Architects and urban planners need to describe cities in the course of their work, be it through maps, diagrams, sketches, computer renderings, or models. This book provides an introduction to these techniques while explaining the processes associated with describing and designing urban environments—it is an invaluable visual handbook for representing the contemporary city.

Stumbling across a being from the world of Elphame, a mugging victim in New York City, student librarian Ruth Marlowe and her friends learn that the muggers stole a magical sword that changes mortals into Grendel-like monsters. Original.

For the first time, the most important quotations of the great conservationist Aldo Leopold, author of A Sand County Almanac, are gathered in one volume. From conservation education to wildlife ecology, from wilderness protection to soil and water conservation, the writings of Aldo Leopold continue to have profound influence on those seeking to understand the earth and its care. Leopold biographer Curt Meine and noted conservation biologist Richard Knight have assembled this comprehensive collection of quotations from Leopold's extensive and diverse writings, selected and organized to capture the richness and depth of the North American conservation movement. Prominent biologists, conservationists, historians, and philosophers provide introductory commentaries describing Leopold's contributions in varied fields and reflecting upon the significance of his work today.
