With an edgy tone and radical perspective, Lama Marut shows that the quest to distinguish ourselves is the true cause of our dissatisfaction, and it continually leaves us feeling isolated and alone. Drawing from the spiritual truism that only by losing the self can we discover our real potential, Be Nobody provides guidance, actions, and simple meditations to help you lay down the heavy burden of trying to be somebody.

This is a comprehensive examination of the 'varna' system - a classificatory scheme laid out in the classical Hindu Vedic literature and thought to underlie the concept of caste, which continues to exert a powerful and pervasive influence over Indian life.

A provocative look at the pursuit of material success and influential power from one of the twentieth

century's greatest spiritual teachers. "I want you to be rich in every possible way—material, psychological, spiritual. I want you to live the richest life that has ever been lived on the earth." —Osho *Fame, Fortune, and Ambition: What is the Real Meaning of Success?* examines the symptoms and psychology of preoccupations with money and celebrity. Where does greed come from? Do values like competitiveness and ambition have a place in bringing innovation and positive change? Why do celebrities and the wealthy seem to have so much influence in the world? Is it true that money can't buy happiness? These questions are tackled with a perspective that is thought-provoking, surprising—and particularly relevant to our troubled economic times. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the *Sunday Times* of London as one of the "1000 Makers of the 20th Century" and by *Sunday Mid-Day* (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

India, once a major civilizational and economic power that suffered centuries of decline, is now newly resurgent in business, geopolitics and culture. However, a powerful counterforce within the American academy is systematically undermining core icons and ideals of Indic culture and thought. For instance, scholars of this counterforce have disparaged the *Bhagavad Gita* as a dishonest book; declared Ganesha's trunk a limpphallus; classified Devi as the mother with apenis and Shiva as a notorious womanizer who incites violence in India.

The Mind Illuminated is a comprehensive, accessible and - above all - effective book on meditation, providing a nuts-and-bolts stage-based system that helps all levels of meditators establish and deepen their practice. Providing step-by-step guidance for every stage of the meditation path, this uniquely comprehensive guide for a Western audience combines the wisdom from the teachings of the Buddha with the latest research in cognitive psychology and neuroscience. Clear and friendly, this in-depth practice manual builds on the nine-stage model of meditation originally articulated by the ancient Indian sage Asanga, crystallizing the entire meditative journey into 10 clearly-defined stages. The book also introduces a new and fascinating model of how the mind works, and uses illustrations and charts to help the reader work through each stage. This manual is an essential read for the beginner to the seasoned veteran of meditation.

Around 1720 in Fez Ahmad al-Mubarak al-Lama, a religious scholar, wrote down the words and teachings of the Sufi master Abd al-Aziz al-Dabbagh. Al-Dabbagh shunned religious studies but, having reached illumination and met with the Prophet Muhammad, he was able to explain any obscurities in the Qur'an, and the sayings of earlier Sufis. The resulting book, known as the *Ibriz*, describes how al-Dabbagh attained illumination and access to the Prophet, as well as his teachings about the Council of the Godly that regulates the world, relations between master and disciple, the darkness in men's bodies, Adam's creation, Barzakh, Paradise and Hell, and much more besides. This encyclopaedia of Sufism with its many teaching stories and illustrations provides a window onto social life and religious ideas in Fez a generation or so before powerful outside forces began to play a role in the radical transformation of Morocco.

First published in 1877, this is volume II of “ The Polynesian Race ” , a fascinating treatise by Abraham Fornander on the subject of the origins of the Polynesian people. By comparing the Polynesian languages, mythology, genealogies, he surmised that Polynesians first came to the Pacific in Fiji in the 1st or 2nd centuries AD; and that they were in fact Aryans who had slowly but surely migrated through India and the Malay archipelago into the Pacific islands.
