The 6-D model of national culture Geert Hofstede, assisted by others, came up with six basic issues that society needs to come to term with in order to organize itself. These are called dimensions of culture. Each of them has been expressed on a scale that runs roughly from 0 to 100.

*The 6 dimensions model of national culture by Geert Hofstede*

Hofstede developed his original model as a result of using factor analysis to examine the results of a worldwide survey of employee values by IBM between 1967 and 1973. It has been refined since. The original theory proposed four dimensions along which cultural values could be analyzed: individualism-collectivism; uncertainty avoidance; power distance and masculinity-femininity. Independent research in Hong Kong led Hofstede to add a fifth dimension, long-term orientation, to cover aspects of va

### *Compare countries - Hofstede Insights*

The Hofstede model of national culture consists of six dimensions. The cultural dimensions represent independent preferences for one state of affairs over another that distinguish countries (rather than individuals) from each other. The country scores on the dimensions are relative, in that we are all human and simultaneously we are all unique. In other words, culture can only be used meaningfully by comparison.
