On paper, Coach Rob Mendez sounds like any other football coach on any other field across America: passionate, authoritative, knowledgeable. But he's unlike any other coach you know--in fact, he's probably unlike any other person you know. Born with an extraordinarily rare condition called tetra-Amelia syndrome, Rob has no arms or legs. He moves with the assistance of a custom-made, motorized wheelchair that he operates with his back and shoulders. Many people look at Rob and see limitation, yet Rob sees opportunity: Opportunity to pursue his passion for

Football. Opportunity to change the way people perceive physical disability. Opportunity to serve as a role model for the hundreds of kids he's coached over the years. Told with both humor and frankness, *Who Says I Can't?* takes readers on Rob's incredible journey, from his birth to loving parents who wanted to afford him every chance for happiness, to the emotional and physical hurdles he faced while seeking independence, to receiving the Jimmy V Award for Perseverance at the ESPY Awards in 2019. Each day, Coach Rob rolls onto the field and shows his players

Bewildered by his strange new home on Park Avenue, disturbed by schoolmates who don't know how to talk to him, and tormented above all by his longing for his mother, he clings to the one thing that reminds him of her: a small, mysteriously captivating painting that ultimately draws Theo into the underworld of art. As an adult, Theo moves silkily between the drawing rooms of the rich and the dusty labyrinth of an antiques store where he works. He is alienated and in love--and at the center of a narrowing, ever more dangerous circle. The

This book is about teletext: a ?broadcast service using several otherwise unused scanning lines (vertical blanking intervals) between frames of TV pictures to transmit information from a central data base to receiving television sets?. To the contributors to this book and possibly to many readers, this technical definition will feel out of

place as it obscures the rich history of a formidable if forgotten medium.

Nevertheless, it is the basic technology of teletext that sets it apart from other media and that, in part, has been the basis for much of what did and did not happen to teletext in terms of policy, institutional setting, content, users and scholarly interest. Many contributions in this book will provide similar definitions, but mostly as a stepping-stone to explore all that has so far been left unsaid by this technical description. It is this gap in our knowledge of teletext in Europe that this

But video involves much more than just pushing bits! Achieving the best possible image quality, accurate color, and smooth motion requires understanding many aspects of image acquisition, coding, processing, and display that are outside the usual realm of computer graphics. At the same time, video system designers are facing new demands to interface with

Wicca, despite not being restricted only to witchcraft, is still known for its ambition to work within the natural order to create change, to improve life, and to impact the Universe through magic. Wiccan Magick, however, is different to the kind of magic you have seen in

Other than the addition of a 'k', the most notable difference is that the magic of real life, the kind of magic that practitioners of Wicca attempt to use, does not spark and flare, it does not explode nor does the tip of their wands or flesh of their palms sparkle with a bright white, orange, or yellow glow. Wiccan Magick is not supernatural by any means, unlike the magic you have heard of. It is entirely natural. Part of the natural order of the universe. And, it operates at a level that is difficult to perceive at times, but
