As an Occult Special Investigator, Tess Corday has seen her fair share of disturbing crime scenes—but nothing has ever shocked her as much as the ritualistic murder of a drugged-out runaway kid, who she soon learns was not the first such victim. All the dead teens had traces of the dangerous magical drug called Hex in their bodies. All were the children of powerful mage families. All were killed with the sacred tools of mages. It adds up to the chilling possibility that the OSI is dealing with a serial killer, one who has incredible inhuman powers. To stop the slaughter, Tess and her partner, Derrick, will go anywhere and do anything—including seeking help from the necromancer Lucian Agrado, whom Tess is under orders to avoid. But as the deaths continue, Tess becomes convinced that the identity of the killer is locked inside her own head. And the question is, how many rules is she willing to break to get to the truth?

This highly practical manual provides evidence based tools and techniques for assessing and treating clients with Generalized Anxiety Disorder (GAD). Proven cognitive-behavioral interventions are described in rich, step-by-step detail, together with illustrative case examples. With an emphasis on both accountability and flexibility, the clinician is guided to select from available options, weave them into individualized treatment plans, and troubleshoot problems that may arise. For those clients who do not respond well to CBT alone, the book also offers a chapter on cutting-edge supplementary interventions that have shown promise in preliminary clinical trials. Special features include a wealth of reproducible materials - over twenty-five client handouts and forms, assessment tools, and more - presented in a convenient large-size format.

Your guide to the mystery of heaven, hell, and eternity The Bible teaches us that when our earthly journey ends, our eternal journey is only beginning. But what will life be like after death? Are there clues that tell us more about the unseen worlds of departed souls? In Secrets From Beyond the Grave, Perry Stone brings his unique blend of Bible knowledge, prophecy, and spiritual insight to the topic of heaven and hell. In this comprehensive look at the afterlife, he answers important questions such as: Where do the soul and spirit go after death? Who will be in heaven? Will our pets be there? Where is hell located? Are there "gateways" to hell within the geography of our earth? What about purgatory, aborted infants, cremation, and suicide? Death is not the end but only the beginning. Journey with Pastor Stone into the mysteries of life after death, the underworld, and the wonder of paradise.

A Simon & Schuster eBook. Simon & Schuster has a great book for every reader.

Highlights the major empirical questions and issues facing Post Keynesian economics today. Focuses on public policy and real-life analysis of this economic theory.

Part Primary Colors, part House of Cards, The Means is a "compelling psychic drama" (Forbes.com) and a "tale of political intrigue" (The Free Lance-Star) that takes you deep into high-stakes politics where everyone has something to hide. Tom Pauley is a conservative trial attorney in Durham, NC, who is tapped by GOP leaders to campaign for the Governor's mansion. His bold style makes him a favorite for a run at the White House. Mitchell Mason is the president-elect of the United States, pushed into politics by a father determined to create a political dynasty. Mason manages the White House with a personal touch that makes as many friends as enemies. Samantha Davis is a child actor-turned-lawyer-turned-journalist, working her way up from the bottom in a competitive industry. She is determined and brilliant, and her dogged pursuit of a decade-old story could trigger a scandal that would upend the political landscape. New York Times bestselling author Douglas Brunt's "fast-paced, noirish novel" (Library Journal) creates an incisive portrait of ambition, power, and what it takes to win in the ruthless world of politics today.

"Juan Gómez-Jurado has created a true masterpiece. The Moses Expedition is a brilliant thriller—sharp, suspenseful, and engrossing" (Brad Thor, author of Code of Conduct). After fifty years in hiding, the Nazi war criminal known as the Butcher of Spiegelgrund has finally been tracked down by Father Anthony Fowler, a CIA operative and a member of the Vatican's secret service. He wants something from the Butcher—a candle covered in filigree gold that was stolen from a Jewish family many years before. But it isn't the gold Fowler is after. As Fowler holds a flame to the wax, the missing fragment of an ancient map that uncovers the location of the Ten Commandments given to Moses is revealed. Soon Fowler is involved in an expedition to Jordan set up by a reclusive billionaire. But there is a traitor in the group who has ties to terrorist organizations back in the United States, and who is patiently awaiting the moment to strike. From wartime Vienna to terrorist cells in New York and a lost valley in Jordan, The Moses Expedition is a thrilling read about a quest for power and the secrets of an ancient world.
